

Police Duty Knife (PDK)

The PDK series of knives is the result of collaboration between law enforcement officers, ASP's product designers and knife engineering and manufacturing experts. Their goal was to create practical, tough and dependable knives specifically for day-in, day-out police use. Tools of excellent quality, yet affordable for any officer.

- Assisted "flipper" opening
- Liner lock
- AUS-8 stainless steel blade
- Quick-reverse clip
- Blue Line accent

Police Duty Knife

3.5" drop point "flipper" blade design with fast, positive assisted opening

Thin Blue Line spacer honors law enforcement

Reversible, quick-release pocket clip

The quick-release pocket clip makes it easy to switch between right-handed and left-handed carry, without tiny screws to deal with or lose. Simply insert the double lock pin of a handcuff key—or a similar thin tool—into the hole seen in the clip slot. Press the pin firmly, slide the clip out, and slide it into the slot on the opposite side of the grip until it clicks positively into place.

The AUS-8 stainless steel blade sharpens easily and holds an edge well with proper use of a quality stone, rod or other honing device.

Six PDK versions available. Left to right: The Classic Folder is available with either flat grip or grooved grip, and with either stonewashed or black PVD blade finish. The Slim Folder is available with either black/grey grips and black PVD blade, or white/black grips with stonewashed blade.
